The average amount of printing performed annually is based on analysis of Kodak

Advanced productivity. Professional quality result.

Welcome to a more efficient way to print, copy, scan and fax. Kodak has combined the latest in inkjet printing technology and added Wi-Fi connectivity so you can go wireless or use the built-in Ethernet connection for more flexible printing. It delivers high-quality document, graphics and photo output and with the new, innovative one-touch control panel everything is at your fingertips. Plus, with premium quality, low cost pigmented inks the KODAK ESP9 All-in-One Printer means you can print up to 2x more photos and documents for your money.¹

Lab-Quality Photo Printing

- Print a KODAK lab-quality² 10 x 15 cm (4 x 6") borderless photo in as little as 28 seconds³
- Photos that last a lifetime, certified by Wilhelm Imaging Research (WIR)⁴
- Dedicated small format photo paper tray holds up to 40 sheets of photo paper

Ease of Use

- The innovative 25 cm (10") one-touch control panel makes printing, copying, scanning and faxing easier than ever before
- The most intelligent paper tray system in the consumer inkjet printing industry: settings automatically adjust for document or photo paper and it detects the amount of paper in the tray before printing
- Edit and print photos easily with the 7.6 cm (3") display
- One-touch colour copying without a PC
